SOLAS-TAPES

Solastape.com started off in 2003, inspired by **T-ISS**, a dutch based company for supply of Solas Safety items. Safety engineers of **T-ISS** design, develop and contract tapes for application in the marine world. The tapes are unique in there area and set to the highest standards. Where needed the tapes have the approvals as will be required by Yards, owners and classification.

Our users are oilrigs, shipowners, dieselmanufacturers, chandlers, shipsuppliers, maintenance and servicecompanies.

The range of Solastapes out of following items:

- **SolasFlex** reflective tape, in adhesive- and sew-on version
- **SolasFlex** anti splashing tape, in rolls and sheets
- **LightLine** photoluminescent tapes, in rolls and sheets
- **DripStop** stop prevention tape
- **HaCo** hatchcover tape, in rolls
- **PipeMark** marking tapes for pipes in rolls

All products are manufactured according ISO-9001 standards. Distribution is supervised by control of **T-ISS** and a specialized approved dealer-network. The agents are frequently visited and updated in latest development of techniques and standards of distributed products.

Since 2004 millions of meters of products have been supplied and installed at well known clients inside the international Marine world. Our dealers can assist with the right choice and can give also service during installation. Products will have all necessary approvals like USCG, Wheelmark, type approvals like BV/DNV/GL/KR/CCS/ABS/ClasNK/LR/Rina when required.

Solastape will constantly increase there range of products in the future in order to be a sole supplier for all technical marine grade tapes.

Quality and service is the most important part for us and our dealers. This combined with a economical offer will enable us to be the partner for all users in the shipping industry.
